“You know you are on the road to success
if you would do your job and not be paid for it.”

Oprah Winfrey

Work It Out is 10 day project, Youth Exchange, focused on the question how to find or create for you a job which will bring you happiness.

If you are between 18 and 24, deciding what to do in life, being unemployed or not really satisfied with your job position, wondering how to get a job which bring you not only money, but mainly satisfaction instead of constant stress, boredom and disappointment, it is for you.

You will meet people from Czech Republic, Bulgaria, Lithuania, Romania, Italy, and Greece.

What more, you reach deep inside your soul to recognize what type of job would you like to do, you will get in touch with a labor market and understand its inner logic, you will define your goal and plan a way how to reach it!

This all in a playful international setting, using the elements of non-formal education like games, workshops, simulations, coaching, etc.

Brno Connected is a non-governmental organisation (NGO) active in the field of non-formal education, personal development and volunteering, both on the local and international level. We believe in unique potential of every individual and we aim to support young-spirited people in discovering and fulfilling their personal goals and dreams.

We focus mainly on local and international projects, programmes and workshops. We both create and deliver them or we cooperate with foreign organisations as project partners. At the same time, we are engaged in promotion and support of volunteering. We are part of International Synergy Group, an informal network of organisations all around Europe, with whom we share a common vision: to create a world that works for everyone.
